Astrology and Communication

Astrology is an ancient language. I call it a language because, every sign of the zodiac expresses itself differently.

For Aries, messages need to have a point to them and be expressed swiftly. Cancerians, on the other hand, take their time getting their message across, often beating around the bush.

If you know your astrology well, you'll know that if your Mercury aspects well with your Scorpio man's sun, moon, Mercury, Venus, Mars, ascendant and/or nodes, chances are communication will flow really easily.

Remember, easy aspects are conjunctions, sextiles and trines. However, squares can cause many important relationship lessons to occur, and oppositions can cause a lot of mutual attraction.

Mental attraction belongs mainly to the 3rd house in astrology – the house that Gemini rules, as Gemini is ruled by Mercury and is an air sign.

Other houses ruled by air signs will also play a part in mental attraction – the 7th house (Libra) and the 11th house (Aquarius), as well as the 6th house (Virgo), as it is also ruled by Mercury.

So, where does that leave Scorpio?

Well, that's what this book is all about – Scorpio, and the way they communicate, for it is unique.

Just remember that the specific planet that really affects communication, and the planet that affects your natal sun sign greatly, is Mercury, and we explore that next!

The Power of Mercury: The Planet of Communication

Everyone has the planet Mercury in their charts. This is the great planet of communication.

Even though your man is a sun sign Scorpio, his Mercury placement will definitely affect his communication style.

Mercury is a planet that always travels very close to the sun. In fact, the farthest it can be from the sun in the natal chart is 28 degrees.

Therefore, a man whose sun is in Scorpio will have his Mercury in either the sign before it, the same sign as it, or the sign after it, as follows:

 **Libra**

 **Scorpio**

 **Sagittarius**

Scorpio Sun/Libra Mercury

This Scorpio man's communication style is quite easygoing. Mercury sits in Libra here, which thankfully makes your Scorpio guy much more chilled, as he just wants to get along with everybody and really desires peaceful communication.

This is the kind of Scorpio man that makes a great friend at first. He is a really great listener who can be very empathetic.

However, he is still a Scorpio, and Scorpios love mystery. Therefore, when you receive texts from him, wait at least 15 minutes to reply – never answer him straight away. If he thinks you're too obvious and figures you out straight away, he'll just lose interest.

As he loves harmony so much, you may get messages like, “Hi babe, how you doing!! Let's hang out together, I really want to see you – pick you up at 7!”

Because his Mercury is in Libra, he'll be a bit more extroverted than your typical Scorpio, and will enjoy having people around to communicate with. He'll also be extremely charming!

You need to remember that the planet influencing his Mercury is Venus. Now, although he is ruled by Pluto, he was originally ruled by Mars, and the two planets really love each other's company.

Therefore, it's really a lot of fun to talk with him, and because his Mercury is in an air sign which is cardinal, he'll initiate a lot of the conversation, and he also won't be so “fixed” and stubborn as a typical Scorpio who wants everything their way.

However, **NEVER EVER SLEEP WITH THIS KIND OF SCORPIO MAN RIGHT AWAY.**

At best, you'll hear from him once or twice again, and poof, he's gone forever! You see, you were just too easy a challenge for him. Also, you held no mystery for him and devalued yourself by getting naked straight away.

His Mercury in Libra makes him really attracted to beautiful women who are very feminine with killer curves, long hair and who take very good care of themselves on an aesthetic level.

When he falls for you, he will see you as a shining pearl, like Aphrodite standing in an oyster shell in the ocean for all to admire.

Try not to text him first. A Scorpio man with his Mercury in Libra will enjoy wooing and romancing you, so let him!

When you text him, never be too crude, or bring ugly images or ugly words to him. He needs harmony, peace and beauty in the messages you send to stay attracted!

This kind of Scorpio man is often in a career surrounded by beauty. He may be a fashion designer or model scout. He can also be a lawyer.

Scorpio Sun/Scorpio Mercury

Here is an interesting combination. You have a Scorpio sun, Scorpio being ruled by Pluto (or the Greek god Hades), mixing with Mercury (or the Greek god Hermes), intensified by Hades.

It is a special combination, as Hermes was one of the few Greek gods permitted into the underworld where all souls went after death. Hermes was a messenger of the gods, and the conductor of souls into the afterlife.

Therefore, a Scorpio man with his Mercury in Scorpio will be fascinated with the macabre, death, psychology, mystery, horror and the occult, as well as everything esoteric.

He may have a very cynical point of view as well. When communicating with him, you should be more serious than if dealing with a Scorpio with Mercury in Libra or Sagittarius.

It is only once he falls in love with you that you can really fool around and act silly and goofy. It's actually what he needs, as life can seem so dark for him at times.

This is a Scorpio man who is very intense and can become exceptionally jealous, obsessive, and vengeful – so tread lightly.

Look for placements in his chart that “lighten” his character; such as the air signs Gemini and Libra (Aquarius is too authoritative and serious), the fire sign Sagittarius (Leo can be too fixed and stubborn while Aries can be rather aggressive), and the water sign Cancer (which will add a nurturing side to him).

In case you are wondering, Pisces can add disillusionment to his character, and the earth signs can only make this particular combination more serious.

He may very well be into BDSM sexually, and his communication can

be highly sexual and “dirty.” So, don’t let him get too filthy with you – **we show you how to stop ALL of that in this guide below!**

It is very important to keep your “mystery” alive with this kind of Scorpio, and never chase after him. He will enjoy obsessing over you.

****Important note:** There is always an element of “danger” with Scorpio men – especially this kind of combination. So, when you meet for the first few times, keep it in public and never get in his car on a first date – suss him out first!

Expect messages like, “I can’t stop thinking of you, I think you have put a spell on me,” or, “You are so damn sexy, I can’t stop imagining you naked on top of me,” or, “I’m really busy right now, but you are on my mind, and I promise I will get back to you when I have the opportunity to do so.”

However, you must know that it is hard for him to open up, especially in the beginning of a relationship, so don’t take it personally when you don’t hear from him too often at the start.

This combination makes him attracted to women who hold a lot of mystery and who are quite gothic themselves – think *Morticia Addams!*

This kind of man may find himself in professions related to crime & murder (as a detective), psychology, psychiatry, politics, and surgery, among other occupations.

Scorpio Sun/Sagittarius Mercury

This is a great pairing for a more jovial sort of Scorpio. Sagittarius is associated with luck, expansion and happiness.

Therefore, this type of Scorpio man won't take himself so seriously, and you can actually have A LOT of fun with him from the start!

He'll most likely enjoy texting you from the beginning, and will chase you quite obviously.

He's the kind of Scorpio you'll find in bookstores and traveling internationally as much as possible. You may also find him in the hallways of universities and colleges, as he loves expanding his mind.

He's also attracted to different cultures, so he may be really into you if you look completely different from him and come from a different background altogether.

This is a Scorpio man that questions everything, and who has an optimistic view on life.

He will also be very honest, so if you ask something like, "Does my bum look big in this?" he'll probably spank it and say, "It does, but I love it," with a wink and twinkle in his eyes!

You'll have fun watching many documentaries with him on the couch and playing a game or two of chess with him occasionally.

This is a Scorpio that is quite extroverted and most probably has a large social circle with many friends – so don't get jealous that he will probably have many female friends.

Expect texts like, "Hey babe, where you at? I wanna pick you up to get a bite to eat. Are you available?" or, "Damn girl, you're sexy! Where have you been hiding all my life?"

He is attracted to "sunny" personalities and women with a "joie de

vivre!” He’ll want to travel the world with you and will want to have many adventures with you.

However, it’s important to be independent, as this is a quality he values. You also need to give him as much space as he needs, as this is a “free bird” that loves his own company and doing his own thing.

Any sort of “needy” tendencies will chase him away (so be aware of this, all you lovely Cancerian ladies 😊!).

This kind of Scorpio man may be a college professor, translator, news anchor for a big network, journalist, or author, among other careers!

What Is a Scorpio Man Really Like?

In lust or love with a Scorpio man? Who can blame you!

First, let's look at the core of his being. Scorpio is ruled by Hades, God of the Underworld. He is married to Persephone, daughter of Demeter, who he kidnapped out of his obsession with her.

She did eventually fall in love with him, and was let out of the underworld to be with her mother a few months of the year – which was how the seasons were born.

Scorpio is associated with the color black, other people's possessions, inheritance, transformation and sex. However, it is not associated with sex the way Taurus and Leo are.

(In case you are wondering, Taurus is associated with sex out of the love and sensualness of it, and Leo is associated with creativity, therefore they “create” children through sex. They have fun with sex and they create. That is why Leo is associated with children.)

No, Scorpio is associated with transformation, and therefore the “orgasm” is what Scorpio looks forward to - the transformation of all that sexual energy into something tangible.

These men have a deep well of emotion and mystery inside of them. Their energy is naturally exceptionally intense and magnetic. Some have tortured souls, while others are extremely powerful.

Scorpio rules the private parts and is extremely sexual by nature. They NEED to orgasm, more than the act of sex itself, as it makes them feel alive and brings them down to earth.

Know this – if you can work your “text magic” with a Scorpio man and make him fall in love with you, you'll have him for a long time – these men can become obsessed with the object of their desire quite easily.

Ok, so now that you know what Scorpio men are like, what do they

actually desire in their relationships?

Scorpio men desire certain things in a relationship – sex, emotional closeness and intensity, a hint of mystery from your side (to keep them interested), a lot of love and affection, a soul connection, and deep conversation.

They are turned on by women who enjoy the paranormal, who are gothic in a way, who wear black and who are warm-hearted. They need a woman who can bring them out of the darkness and into the light.

Now that you know what Scorpio men are really like, I'm sure you are aware that sometimes us women make mistakes, really BAD mistakes, that we need to avoid, when texting Scorpio men – read on to learn what they are...

The Worst Mistakes Women Make When Texting Scorpio Men & How to Avoid Them

Texting Too Much

Scorpio men love mystery; it turns them on. If you text too much, you become really obvious and boring to them, and they will lose interest.

If they don't reply straight away, it's because they'll do so in their own time. They can be shy at first.

They also don't want to appear too keen. So, it's important not to text them too often, otherwise they may think you are desperate.

Sending Naked Pics

If you start getting sexually explicit with a Scorpio man straight away, that's how he will always view you – as a sexual object. Even if he pushes for it – and he may, being a sexual Scorpio male – keep your clothes on and your dignity intact.

Sending Insecure Texts

When you start sending texts like, “Do you really love me?” “Were you flirting with other girls at work today?” etc. then he will start feeling sorry for you and realize you are very insecure.

If he likes you a lot, he will understand this and want to be there for you.

However, don't do this too much, or it will start to irritate him. He is not the savior type – leave that for Cancerian men.

Also, he doesn't appreciate you watching his every move and not trusting him. **This will only push him further away.**

Make it a habit not to send messages like, “Do you really find me pretty? I want to lose some weight and then I know I’ll be even more beautiful.” If he is dating you, he finds you pretty and attractive.

Messages like this will make him think you don’t value yourself very much. He’ll also be insulted. He chooses to date you because he finds you attractive, so don’t question your beauty to him.

It will put him in a position of power, as you’re telling him that you only, in a way, want to be beautiful for him. Never do this (with any guy).

Sometimes Scorpio men lose interest and stop texting – read on to find out why...

Reasons Scorpio Men Lose Interest & Stop Texting You

When a Scorpio man is into you, you’ll receive many texts. You’ll be on his mind, and he’ll desire you intensely.

However, the following chase Scorpio men away, and make them lose interest and stop texting you:

Revealing Too Much Too Soon

Don’t give too much of yourself away. Scorpio men love mystery more than anything. They want the task of figuring you out...slowly.

Stop giving too much information to him via your texts. Keep your texts short, sexy and mysterious, to the point that he wants to find out more about you.

Sleeping With Him Too Soon

If you sleep with a Scorpio man too soon in the relationship, but he really likes you, he can become obsessed with you!

However, if it is purely lust and it is just physical attraction, he may sleep with you a few times, but then toss you aside looking for a deeper connection with another woman.

You have to prove to him you're not just another woman to be treated as a sexual object.

Scorpio men are some of the most sexual men in the zodiac, besides Leos and Taureans, so it may feel natural to jump into bed, especially since he is so sexy and magnetic.

However, try not to do it! It is really detrimental to any long-term relationship with a Scorpio man to sleep with him straight away. Anyway, the more obsessed he becomes with you, the more precious you will be to him, and the more cherished you will feel.

Always Being Available

Don't always be so available for your Scorpio man.

Of course you shouldn't play games, and you need to be there for him. But let him miss you! Go out with friends and make other plans.

If he can't be with you, let him know that you have space in a few days' time to get together. He'll slowly start yearning for your company (until he eventually may ask you to move in, so that you're always there).

What NEVER to Do When a Scorpio Man Pulls Away & How to Fix It

If a Scorpio man starts pulling away from you or ignores you, **stop chasing after him.**

It may hurt, but he might eventually block you from contacting him if you chase after him. This man needs his space to collect his thoughts.

He is an eternal introvert – unless he has many planetary placements in fire and air signs.

It's really important not to send angry or desperate texts like, “Why haven't you contacted me? It's been 7 days since you slept with me.” Or, “I really want to see you and can't keep you off my mind!!!”

If he wants to see you, he'll contact you. Don't make yourself so available.

How to Fix It

Simply give it time. Wait a good 14 days if you haven't heard from him and simply send him a message like:

Hey stranger, how you doing 😊?

This is short, to the point and polite. A nice flow of conversation can be established off this text, if he decides to reply.

Just wait for his answer, and don't text him again if he doesn't reply soon enough. This is Scorpio we are talking about. He is often deep in his thoughts and loves his own space.

Need to get him to text you first? Read on to find out how...

5 Sneaky Ways to Get Scorpio to Text You First

So, you've met a Scorpio man through friends, at college, online, or even at work, and you want him to text you first? Think about his element — he's a water sign, so speak to his emotional side.

- If he's a work colleague, give him your number and tell him to send you a progress report on the work at hand, and tell him that you especially love his input as you can see he really cares.
- If you've met him at college, give him your number and tell him he can call you for help on his assignment, and that you'll be there for him when he needs your help.
- If you've met through friends, give him your number and tell him to contact you so you can give him details on the next beach day your friends are going on, or the next pool party. (Scorpios are in their element when in water.)
- If you meet him at a club, flirt with him, give him your number, and simply say, "You're super-sexy, text me," or just say, "Text me," with a wink.
- If you strike up a conversation with him while out shopping, look in his basket, and tell him to text you and that you'll give him a great recipe with the ingredients he's got! (He'll love this one and may even ask you to come on over and show him!)

Sick of one-word texts? Now let's talk about how to get actual sentences out of him...

5 Little-Known Tricks That Force Even “One-Word” Scorpio Texters to Respond

You’re texting each other, but your Scorpio man is driving you crazy as he’s not really engaging in the conversation.

Therefore, you need to send him more engaging texts that he’ll respond to. Remember what Scorpio is all about – sexuality, intensity, mystery, great love, obsession and devotion. You can copy and paste these:

Oh my God, my dinner tastes so good, it’s almost orgasmic 😊!

This works so well as it combines the two things he loves the most – mystery (he’ll be curious to know what you’re eating) and sex.

It’s short and simple, and will make him want to engage in a conversation about what exactly you are having for dinner that is so orgasmic.

Hey, I’m looking for a new Netflix 🎬 series to watch. What do you recommend 😊?

Scorpio men enjoy crime scene investigation series and movies about the mafia, murder, and the paranormal, as well as horror.

He’ll most likely know all the good Netflix shows about this genre and can recommend something good (and scary) to watch. However, he’ll probably recommend that he come over and hold your hand while you watch, as it is so scary.

My muscles are aching and I need a good masseuse 🙌. Know of any?

This gives your Scorpio man the opportunity to jump in and say, “I have a bottle of massage oil and can come straight over!”

Wow, I'm watching the most fascinating murder mystery. You'll never believe what happened to this waitress in Carolina who went missing *(put in any murder mystery you have watched)*.

Scorpio men love good murder mysteries – trust me, they've read books on the subject, and watched many movies and series about it! This line should get him interested enough to respond pretty quickly, and in detail!

Hey sexy, what's up? I can't get this rock song out of my head and I have no idea what it's called. Can you help?

Most Scorpios love music, as it connects with their deep and intense feelings and emotions, and most like (dark) rock music. This text should get him to reply!

These may not be the most romantic of texts, but they will engage him in conversation so that it can lead to better conversations and texts.

Feel like flirting so that he'll dream about you? Some amazing, flirty texts to really attract Scorpio men into your heart are waiting for you in the next chapter.

5 Flirty Texts to Make Scorpio Men Miss You, Dream About You and Think About You

These texts are especially for those experiencing long-distance relationships where you can't, or don't, see each other very often.

I miss those strong arms of yours all over my body. I wish I could  you now!"

This is flirty and not overly sexual in any way. It will make your Scorpio man wish he could be with you right now.

I just baked the most delicious lasagna  and wish you were here to share it with me!

(Attach the picture of the lasagna next to a glass of red wine)

This lets him know you are enjoying yourself, but that you wish he could be there with you. Scorpios enjoy their food; mainly when they are hungry, as they don't binge. Send this text around his dinner time and he'll be drooling for it, and for your company!

It's so hard to sleep sometimes without lying in your arms, against your big chest  I wish we were together right now 

Scorpio men can be really romantic and enjoy physical closeness and tenderness. This will make him miss you so much and think of you in bed at night.

Please listen to this song! I can't get enough of it!

Make sure you know what his favorite genre of music is, and ideally, find one song that has some sensual lyrics and/or a sensual melody. You want him to activate his senses by listening to a great song. Then, you should follow up with something like this:

I'm imagining myself in a fast car, driving along a tropical beach while this song is playing. It just makes me feel so good.

This should spark up his imagination and make him want to 'upgrade' your day-dreaming by adding himself in the picture. Plus, the idea of a beach really relaxes him!

PRO TIP:

Whenever you can, use this "daydreaming tactic" to make him picture the two of you together. It can be about a song, place, town - whatever you want.

Then describe a few things, making sure you leave enough space for him to carry on daydreaming with you, and create a loving/ sexy scene with you in his mind.

I love the fact that we can have such deep conversations. It's not always easy being able to connect like that.

This should really touch him deep in his heart and soul. All he wants is a deep connection with someone who "gets" him. The truth is that the woman who does, is most likely the woman he will want to settle down with.

Now that you have him dreaming of you and missing you, read on and discover the best texts to really turn him on!

5 Naughty Texts That Will Turn Him On Immediately

I just had the biggest orgasm 🌊😌 of my life thinking of you right now.

This is straight to the point without messing around. It's for relationships where you're already sexually involved. This will make him very horny and get him calling you straight away with a dirty mind, and probably a lot of sexual talk!

I bought this new 🍑 today. Like it?

Attach a picture of you in a bikini

Keep this text for if you're already in a sexual and flirtatious relationship. Show him pictures of your cute new bikini. When he sees this message, he'll be dying to strip you off and make love to you!

I'm touching myself. I need to hear your voice; it will turn me on so much!

This message will get your Scorpio man on the phone in seconds — trust me!

I'm out for dinner and not wearing any underwear right now.
Just saying 😏.

He will have tons of questions to ask you, and the idea that you're out without him being naughty will turn him on in a second!

I don't know what's wrong with me today.
I just feel so horny. Wanna play a game? 😈

This message is great if he has a job that gives him enough time to reply. If you think he is generally too busy with his work, then leave out the, “Wanna play a game?” and wait for his reply.

If he’s the first type, then get creative and tell him what you would do to him... Is he working in an office? Tell him that you are imagining yourself without underwear, entering his office and heading directly towards him.

You can also tell him that you would leave him working while you get playful with his c**k under his desk. This will make him so hot that he will just want to see you as soon as possible!!

Is your Scorpio man behaving badly? Here’s how to get him to stop sending so many sexual texts...

7 Texts to Send Him If He Gets Too Sexual

You're dealing with a Scorpio man here, and he can't help himself; once he sees a beautiful woman he's attracted to, he's going to automatically want to sleep with her.

The only problem is you want more! Here's how to halt messages that get too sexual from his side:

Hey baby, you have the sexiest ass, I just want to bite it

Thanks for the compliment, but if there's any biting going on, it's on those lips of yours for thinking such naughty thoughts 😏!

This is a fun and cheeky way to respond to a Scorpio man while telling him that he's in trouble for being too sexual with you, as Scorpio men CAN get VERY sexual.

Have you ever had a threesome? I'd love to see you with another woman.

Actually I love my threesomes — pizza with cheese, tomatoes and pineapple; burgers with tomatoes, lettuce and pickles; fruit salad with bananas, strawberries and grapes.
If you want to have sex with me and another woman, you're barking up the wrong tree, however if you ever want to eat one of my threesome meals, just hit me up 😊

He'll get the message very fast that you're not someone who partakes in such things, and he'll get off your back about this subject very quickly.

He'll also find this message very funny! Scorpio men can really try their luck when it comes to sex. Naughty boys!!

Ever since we met, I can't stop thinking how much I want to fuck you!

That's funny. Ever since I read that message, I can't stop thinking how much I want to smack you on the head — after you buy me lunch, of course 😏!

The little wink is important because you're showing him that you're playing around and not really being mean to him, but that you are definitely putting him in his place and setting boundaries.

You're telling him you want to see him, but if he's interested in you, he actually has to take you out for a date! This message comes from a Scorpio man with a really dirty mind — his Mercury will probably be in Scorpio!

What's your favorite sexual position?

Well, if you ever score enough points with me, maybe you'll find out 😏!

This puts him in his place very quickly, letting him know that if the two of you are ever going to sleep together, he's really going to have to put in the work. Scorpio men can often think of sex all day!

Wow, you have a sexy body!

Trust me when I say my mind is even sexier 😏.

This just shows that you really value and respect yourself, and that if he ever really wants to get to your body, he's going to have to get to know you first.

Has a guy ever cum on you?

Wow! Straight to the point, hey? I'd have to keep that a secret but if you ever want that in our future, you're going to have to not be such a naughty 😈! I'm free on Wednesday evening for dinner - but please behave 😊😌!

This lets him know you're a classy lady who doesn't tolerate being spoken to in such a way.

It lets him know that you possibly will be sexual with him in the future, but that he has to behave and treat you well and take you out on a date before anything sexual occurs.

Again, this kind of message may come from a Scorpio man with a Mercury in Scorpio – it's just completely sexual and discusses "cum," which is a very Scorpio thing to discuss.

Do you like anal sex?

A backdoor question hey? I don't know, but if you ever want to the front door to my home again, you better ask me something a little bit more interesting 😊!

This puts him in his place again, and lets him know he needs to stop treating you like a sex object and asking you such rude and demeaning questions.

Scorpio rules the anus and these men are fascinated by anal sex. This is something you may eventually want to try out with him – just make sure he wears a condom, and that there's lots of lube involved!

Dying for him to ask you out already? Here's how to make it happen...

7 Texts That Make a Scorpio Man Ask You Out

So, you've met the Scorpio guy of your dreams, exchanged numbers and have been texting a little bit, but you want him to ask you out. Here's what you need to text to make that happen. Feel free to copy and paste!

①

Wow, there's this new bar in my neighborhood that I'm dying to try out. I heard the cocktails are killer, and the music is so good!

This should prompt him to ask you out to go there together. He's a Scorpio, and these men like bars – they're dark and they can hide in corners while watching others. If for any reason he doesn't ask you out, just say to him – “Wanna try it out with me?”

②

It's such a beautiful day — I'm hitting the beach soon! Let me know if you want to join!

This should prompt him to join you. However, if he's busy, the way you casually ask him to join you will make him want to compensate and suggest something that will work for him.

If he isn't busy, know that he can't resist the ocean, will love seeing you semi-naked, and will want to feel what it's like holding you in the water! It's a very romantic scenario for him.

③

I love my ; it feels so cozy, you know? I love a good glass of deep red Cabernet Sauvignon  while watching Netflix. What are your favorite shows?

This should be really obvious to him, and he should ask to meet you at your place really soon after reading this message.

He's a Scorpio and enjoys the thought of good wine and Netflix. It

sounds sexy to him as he knows he can cuddle up close to you this way!

He'll want to be there with you – but he'll also try to have sex with you, so if that's not your intention, let him know you can just make out and that's all. (Don't use this text this with Scorpio men you hardly know).

④

Hey, I really enjoyed the conversation we had yesterday.
It would be nice if we took it out of the virtual world.

This is really subtly hinting at him to ask you out so you can talk and get a drink, lunch, dinner, or even an ice cream, and carry on with your conversation.

⑤

Wow, the new (insert actor) movie looks so great.
Have you seen it yet?

This should prompt your Scorpio man into asking you out to see a movie. If he doesn't enjoy that actor's movies, he can always ask you out to see another movie.

⑥

It'll be so sunny and warm this weekend.
I'm planning to go hiking.
Nature really relaxes me and makes me feel so much better.

To keep the conversation going, say:

"When did you go for a hike last time?"

And then tell him something like:

"I think hiking really provides such a peace of mind that everyone should do it as often as possible... I can't wait to go. So if you're interested, you're more than welcome to join 😊"

He will probably say yes, since he loves being out in nature so much! He is very "in tune" with it. Be aware that he enjoys the night, and likes exploring nature in the evening as well as in the day (just make sure you go somewhere safe from wild animals and won't get lost).

⑦ So, when are you taking me to the beach like you promised?

Here, it actually doesn't matter whether you've talked about it or not. You can even play a bit silly and act as if he mentioned it before.

The aim here is to get him a bit confused, and then provide him with a "confusion-soothing" backup message that will make him laugh. This way, he will know you're not actually pressuring him, but that you are telling him you're interested in seeing him.

The backup message should go something like:

"Haha, sorry, we actually never talked about it. I was just checking whether you have a good memory 😊."

He will surely follow up with some laughing and ask you out, because you just "broke" the pressure of asking you out on a date with 2 simple messages.

He also will find it hard to say no to a beach date.

Want to send him really romantic texts that he'll love? Here they are, up next...

5 Deep Love Messages That Appeal to Scorpio Men

Scorpio is a sign that connects to three specific planetary bodies – Pluto, Mars (its original ruler), and Uranus (Uranus is exalted in Scorpio).

It's a sign that's associated with jealousy, anger, sex, sin, extreme passion, huge intensity, magnetism and transformation.

These are some deep love messages to send the Scorpio man that you're dating:

Baby, I miss the warmth of your body close to mine.
I just want to look deep into your eyes while making love
and falling asleep in your arms.

Send this to him only if you are in a sexual relationship with him. He'll love the words, and this message will pull at his heartstrings.

He is also a sign that loves looking deep into your eyes as you make love.

Baby, I'm so happy that we're in love.
I wouldn't want to be with any other man. You're home
to me and make me feel so safe.

These words are important to a Scorpio man, as he will see you as his possession once he is in love (or lust) with you. He needs to know you don't want anyone else but him.

PRO TIP:

DON'T ever cheat on a Scorpio male. Rather, break up with him first. He gets super jealous and exceptionally vengeful. Want all those nude pics you sent to him over the course of your relationship plastered all over your Facebook wall? Cheat on him! 😬

Darling, I wish we could wake up together tomorrow! I'd cook you your favorite breakfast 🍳 and you could massage my toes afterwards. Miss ya 😘!

This appeals to your Scorpio man as he likes being taken care of (not in the “baby” Cancer way but rather in the way that he does everything for himself, so it feels good for a woman to “allow” him to relax and be taken care of). He will also love making love in the shower!

I need you here so I can massage your body. I need to feel you close to me. I want to make you feel good. Please come to me soon.

This appeals to his sense of want, and the need to be close. It's a romantic message that is also sexual, and it speaks to his “obsessive” side too.

Have I ever told you how much I love and appreciate you?

This is an important message for your Scorpio man, as he likes to know that all the effort he puts into the relationship is valued.

5 Goodnight Messages So That He'll Only Think of You

It's important to send your Scorpio man messages at night when there is quiet, and all he has on his mind are his thoughts. These messages are guaranteed to make him think only of you:

Wow, babe, I'm feeling really horny.
I wish you were here so we could have some fun 😏

This is a sexual message for when you're feeling in the mood and want him to desire you physically!

Scorpio men are naturally horny pretty much all the time, so they're thinking about sex anyway every night – might as well let your Scorpio man have images of getting naked with you!

Hey baby, I know you've had a lot work stress lately.
How are you feeling now babe?

This shows that you listen to him and are concerned about the way he feels. Scorpio men actually love opening up about their feelings and being vulnerable with women they trust and love. He'll feel very connected to you this way.

Wow babe, you must have the sexiest body
I've ever had the pleasure of sleeping with.
I love the way you touch me.
Do you love touching my body too?

This lets him know how sexually attracted you are to him, as well as letting him know you love his touch. Sex and attraction are integral in the nature of a Scorpio man, and if he loves you, sex will transform his love of you into a deeper love.

Who is the most intriguing person you've ever met?

At first, he'll probably say, "You." After you've said, "C'mon," he'll most likely tell you about someone really interesting. He is a Scorpio after all, and really taken by deep and mysterious people, so his story will probably fascinate you. He'll feel closer to you after telling you, and will also feel really excited that he had the opportunity to do so.

You know, they say Italy has the best food 🍕🍷 in the world. I would love to explore it! Have you ever thought of living abroad? Imagine if we lived together in Italy for a few months. It would be simply magical!

This text is best left for circumstances where you have been dating for a few months (at least six). It also works well with Scorpio men with Mercury or other planets in Sagittarius, or aspects to Jupiter. (Jupiter rules Sagittarius, and is associated with international travel!)

However, you are not putting too much pressure on him. You're mentioning "a few months." That way, he will be more open to the idea and not run away from commitment. He will feel connected to you, as you are revealing that you imagine living with him one day.

I love making love to you.
Think we can try a few different positions soon?

Have you ever heard of Yoni Massage?
(add the link in the message)
It looks really kinky. I'd love to try it out!

This will appeal to his sense of touch, and he'll want to get hold of you straight away to arrange a date to try this with you.

I'm not sure which dish to make
(add 2 images here of 2 different dishes).
Can you help me out?

This will prompt him to help you decide which bikini to choose, and he may even follow up with a message asking if he can join you at the beach.

Hey stranger, haven't heard from you for ages. I'm thinking of getting a tattoo. What do you think of this?
(Attach a pic of a tattoo that you like (even if you're not really thinking of getting one))

Scorpios have a fascination with tattoos. There's something dark and dangerous and incredibly sexy about them as well. This should get him responding pretty soon.

Are you experiencing a wonderful “friends with benefits” relationship with your Scorpio man BUT want more? Here are texts to make that happen...

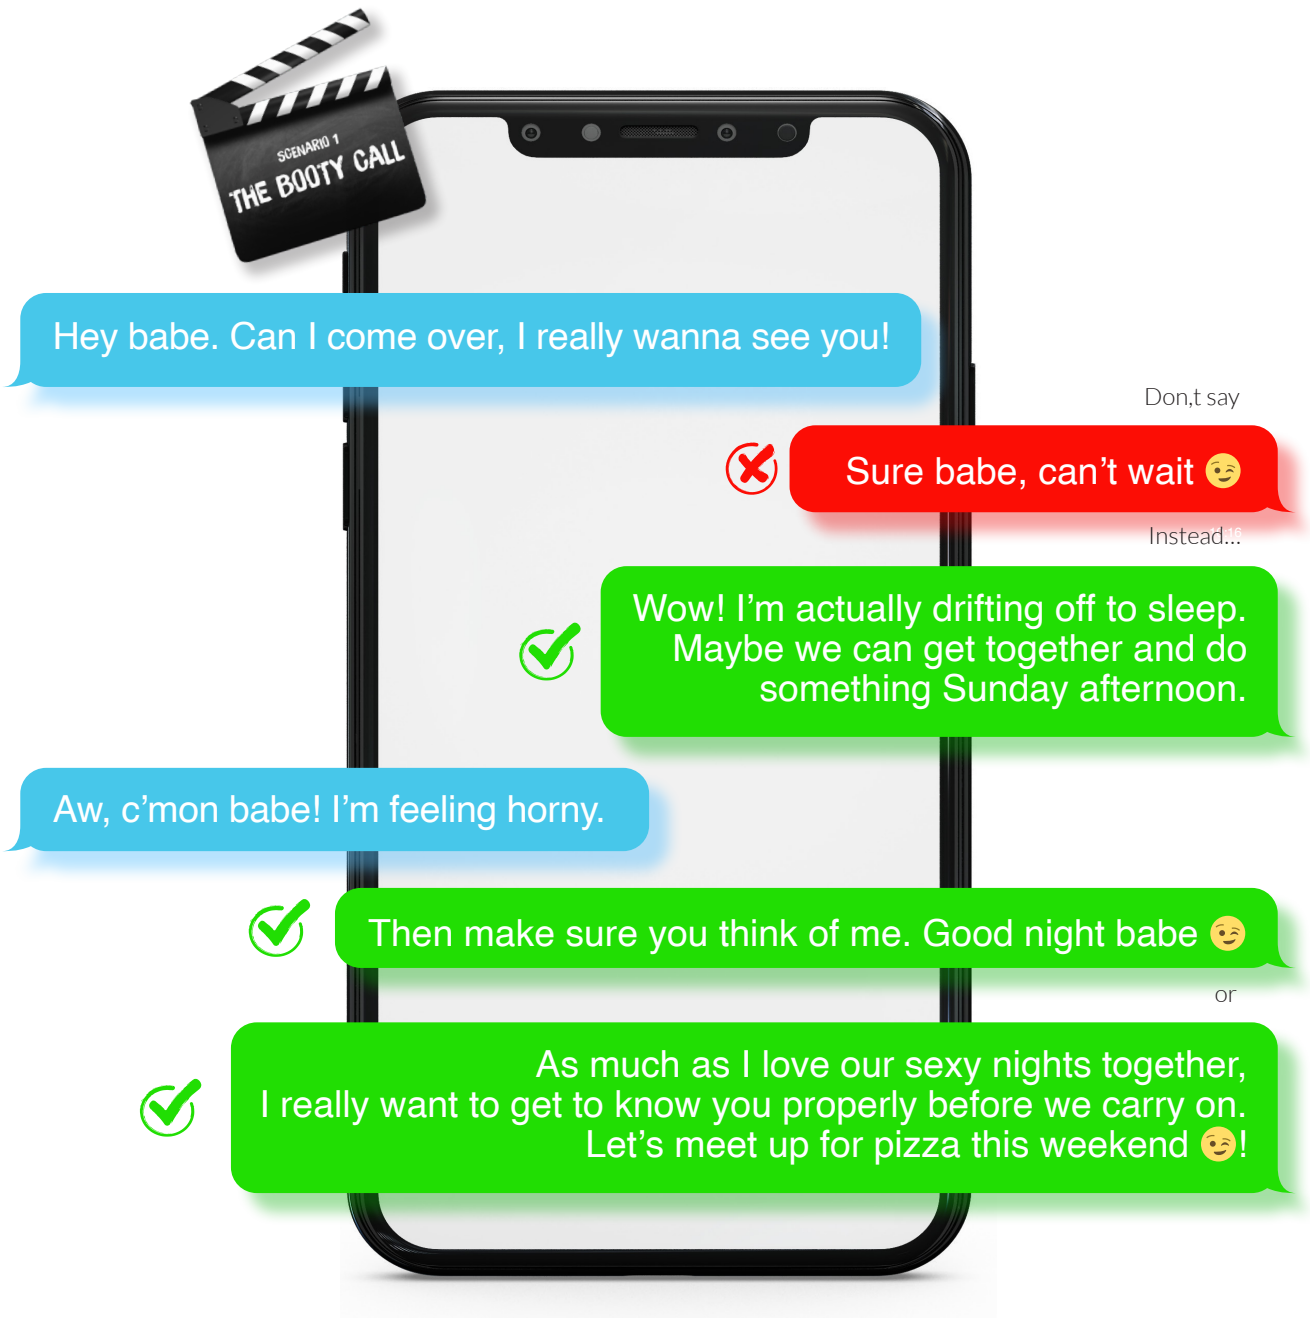

5 Texts to Make a “Friends with Benefits” Situation Turn Into “Friends in Love”

This is specifically for relationships with Scorpio men where you are experiencing a “friends with benefits” situation.

Scorpio men are extremely sexual and love the idea of having women around to play the field with. But what if you’ve actually developed feelings for him?

You have to teach him that you can’t just be his “booty call” whenever he feels like hitting you up.

The following texts will cause him to have deeper feelings for you than just sexual cravings.

This will put him in his place and show him that you have more value than just to be used for sex. He'll think of you more highly, and may actually consider meeting up with you and doing something entertaining in broad daylight.

This just lets him know that you actually want to spend time together and have a shared experience with him other than just sex.

Hey babe. I love having sex with you.
I really wanna see you again!

Don,t say

Me too 😊!

Instead...

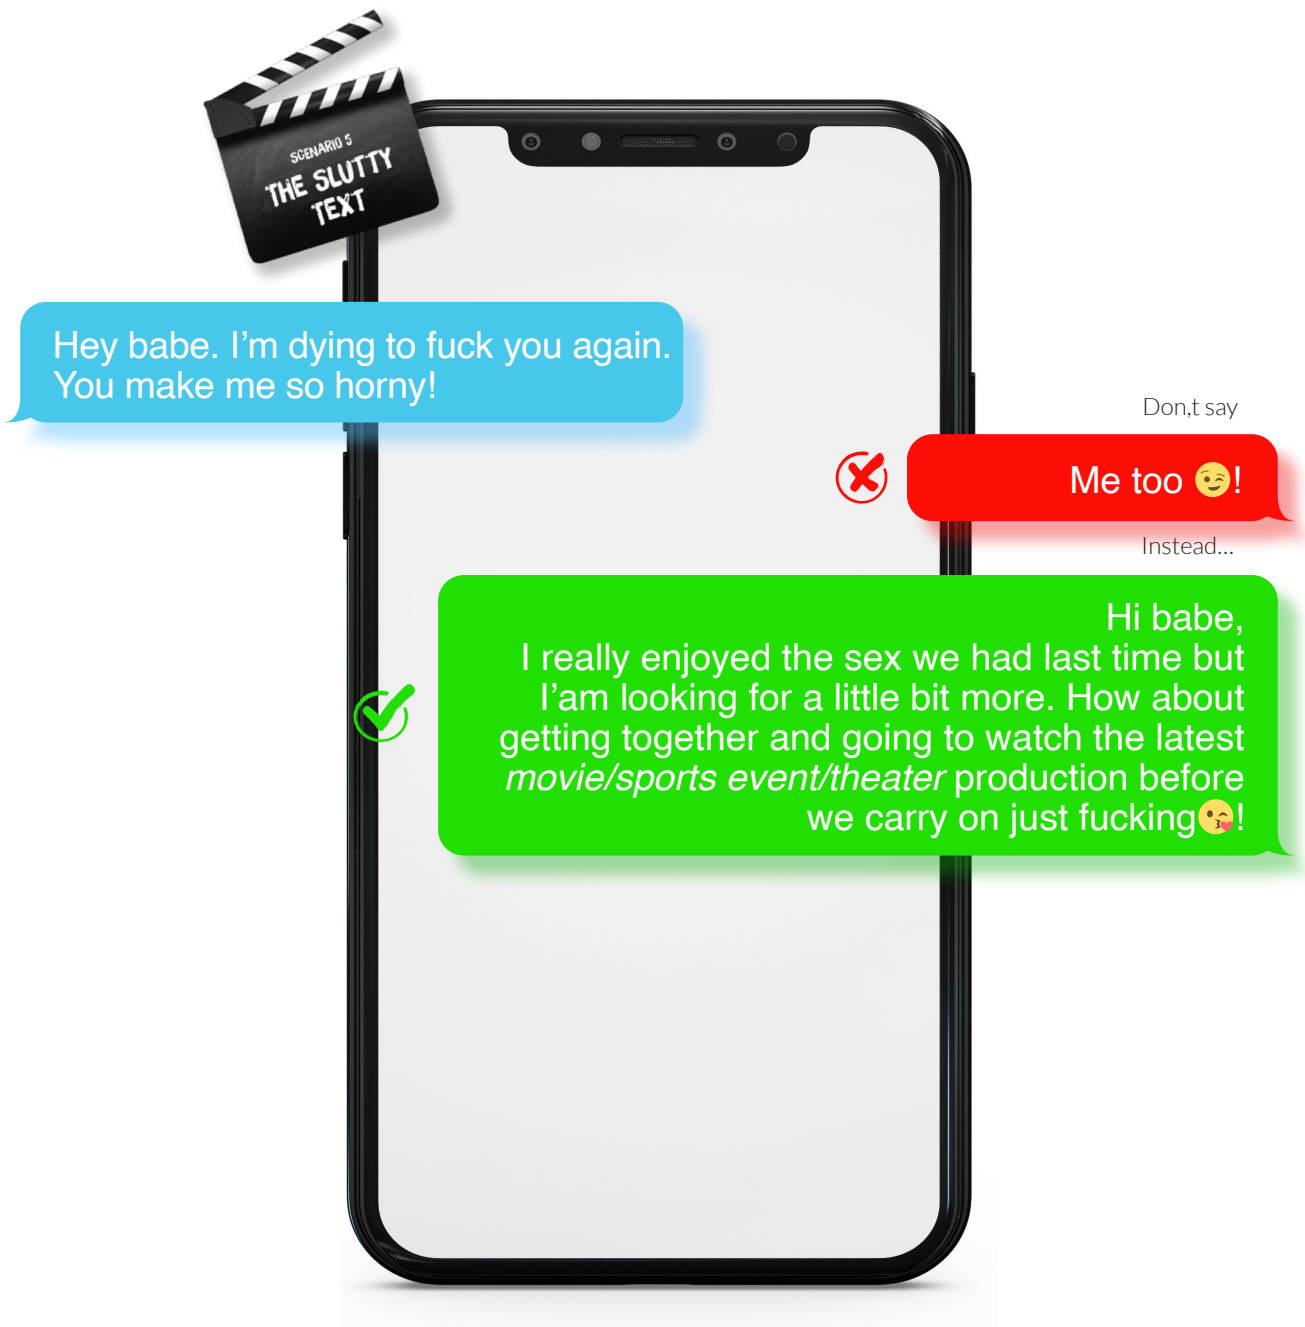

Hi babe,
I love getting physically close with you too.
Let's get together again, but let's take a walk on
the beach, or get an ice cream by the pier first.
It'll be nice actually getting to know you,
and not just your hot body 😊

Again, you're letting him know that sure, you want to get together with him, but first you want to get to know him better. If he's a decent guy and appreciates the gesture, he'll want to get to know you too!

This is letting him know that you'd love to get together with him and actually do something, rather than being available for a quick bang when it suits him.

It lets you have more control and tells him that you want to spend time with him getting to know him, before just jumping into bed with him again.

This tells him that you require more than just sex, and want to actually do fun things together. He should agree if he really likes you, and if he says that he's not into that, you'll have better luck with another Scorpio man who actually deserves you.

But what about when you love all the sexual fun you're having with your Scorpio man? Next up are 10 seriously dirty and delicious texts to get him really horny for you...

10 Dirty Texts to Send Your Scorpio Man for Intimate Moments

Scorpio men think about sex more than the average man. In fact, there are probably more Scorpio men subscribed to porn sites than most other signs. Remember, Scorpios don't just love having orgasms – they **NEED** them to feel more alive!

Know that when you are not together, he is busy having many fantasies thinking about you to get himself off.

Trust me, when you text him these handy dirty phrases, he will really go **GAGA over you!**

Scorpio men like to know you are thinking of them, and what better way to show this than by sending them naughty texts that will drive them wild?

The amazing thing with Scorpio is that if you are one of those women who is highly intuitive, you'll know exactly when your Scorpio man is thinking of you – all those times you just can't get him out of your mind!

Those are the best times to text him these messages.

①

Honey 🍯, I can't stop thinking of what you're going to do with my body tonight!

Here you are giving him permission to do whatever he wants with your body. Scorpio men love to explore, and love putting their hands on the woman they lust over's body.

Give in to your Scorpio man and send this text to him when he least expects it. He'll have you on his mind all day long!

②

I bought you this.
Thought we could try it out!

Attach a picture of a cock ring with this message

Your Scorpio man will love a cock ring because it will ensure that **his erection will be fuller and longer**. This is because all the blood vessels will be compressed. What he will love most is the sensitivity that it brings to his penis.

Make sure that it's a vibrating cock ring, as this will stimulate the penis even more and give both of you a better time.

Your Scorpio man, no doubt, knows all about cock rings – he knows about most sexual accessories, as they fascinate him.

He will think of you all day, and will probably get hard every time he does. Once he gets home you'd better have the cock ring ready to slip on him, because he's going to want you straight away!

③

I need you to untie me 🙄👊?!!

Attach a photo of your hands against the bed post, tied up

Scorpio men love bondage, and the sight of your hands tied up will really turn him on. It also takes initiative on your behalf to send him this picture.

Bondage is also all about trust, and it's something he really values in a relationship – he wants to know that you completely trust him; it's a huge turn-on for him both physically and emotionally.

Look into different types of bondage rope that will suit you both best, from cotton to synthetic, and other styles.

④

I'm cooking a really good meal tonight.
Get ready for dessert 🍷 – it'll melt in your mouth 😊

This leaves a lot to the imagination for your Scorpio man. Scorpio men love their food - not as much as their zodiac opposite, Taurus (who obsesses over food), but they do enjoy a good meal – especially if the

woman they love takes the time to cook it for them.

By suggesting that you have dessert ready that will melt in his mouth, he will know you are referring to sex afterwards, and will really look forward to a night filled with pleasure.

When he gets home, have a wonderful meal ready with dessert and let things get sexual afterwards – just the way your text intended!

⑤ This is waiting for you to spank it tonight! 🖐️

Attach a picture of your bottom with sheer black underwear on it

Scorpios love bottoms; it's one of their favorite body parts on a woman. The fact that you are giving him permission to spank yours is a huge turn-on for him, as he loves spanking. He has probably done this many times to you before.

The image of your bottom in sheer underwear will stick with him throughout the day, and will keep him horny until he walks through the door, puts you over his knee, tells you what a bad girl you have been, and gives you a few hard spanks!

⑥ Baby you make me so wet 💧. Can't wait to see you tonight! 😊

How can a Scorpio man not be turned on by this? The image of you with your panties wet thinking of him is so hot for him. Also, the text lets him know that the two of you are going to end up having sex by the end of the night.

It's **very kinky for him**. Scorpio men are extremely turned on by how wet you can get, and how wet he can make you – just as you are turned on by the fact that he gets so hard when you are together!

Later, when you see him, don't just get into sex. Romance each other a bit with **foreplay** and let him finger you, truly feeling how wet he actually makes you. This will get him very "sexcited!"

⑦ 🍷🍌💧 N-O-W!!

This will really turn on your Scorpio man, as he knows there's a blowjob waiting for him. It's a simple text that he can quickly look at and get turned on by. He will probably send you back an equally short and sexy text with emojis too – something fun!

This is also a really cute text, and he will appreciate that side to you – that you can be fun and send this sort of message to him.

⑧ You spanked me so hard last night 🔥😄🌶️, I guess it's time for payback, tiger🐆!

This is a “cheeky” text you can send your man after a good night of spanking. Since he's a Scorpio, he can relate to the idea of payback, and will be looking forward to it with a big smile on his face!

When he sees you next, he will have no problem with you inflicting a little bit of pain on him – after all, he is a Scorpio, and he can take it!

⑨ I'll see you at the beach later – and expect a tidal wave 🌊 between my legs😏!

Here you are admitting that there'll be a lot of fun, foreplay and sex by the beach later on. He will most certainly be looking forward to it.

The beach is also an important place of calm for him. You have both probably had many romantic dates by the beach, especially at night, where the sound of the waves crashing and moving forwards and backwards has relaxed your souls and provided a romantic background.

Let him know what time to meet you, bring a beach bag with a large blanket (because nothing is more unsexy than getting sand between your legs), and make love to your Scorpio man away from the public eye. It will be really special for both of you!

⑩ Babe, I'm craving you all over me right now, can't wait to see you this weekend😍!

Scorpios want to be wanted; they crave being needed. If you desire them and start obsessing over them, trust me, they're used to it – they know what effect they have on people.

Put your hands all over your Scorpio man when you see him. Keep your nails manicured (and long) so you can scratch him all over his back while you make love.

Let him know how much you desire him by looking into his eyes and biting his lips gently. Let him know how sexy you find him - it's VERY important to him!

Again, Scorpios can be slow at opening up straight away.

So, when you put in the effort with these messages, he will really appreciate it and will love your flirtatious, playful attitude!

Scorpio men can handle serious and sensitive topics. **They're emotional, feeling people**, so when you come around with all these dirty text messages, he'll find it fun, refreshing, and endearing!

Wrapping it up!

So, there you go! All the text messages you will need for all stages of your Scorpio man relationship.

No matter what is going on, you will be able to find a text that you can send him which will make him desire you even more, or put him in his place if he's getting a bit too sexual (unless that's what you want)!

Use these texts as much as you can, and watch him hunger only for you! Now that you have read all of this, you should feel more comforted and at peace in the knowledge that you'll be able to understand and handle any texting situation.

Follow this guide, and he'll be thinking of you all day long. In fact, he may text you so often that you'll finally feel a sense of freedom and power all at once.
